

ISP License Registration in India

What is ISP license?

The Government of India has allowed Private Sector's Company to apply for Internet Service Provider (ISP) License to start their own ISP Business. This license is commonly known as Unified License (UL). Private Sector Company's can apply for ISP license for different areas under Unified License.

It is mandatory for Company to have UL ISP for providing ISP services for a certain area.

Validity for this license is 20 years.

Issuing Authority – Department of Telecommunication Delhi.

This license is needed for running Internet services or Data services in India.

You can provide internet services like Leased Line/Broadband /VOIP /IP TV etc.

Who can get ISP License?

- To apply an ISP license in India, you need a registered company under the Companies Act, 2013.
- Registration SEVA can also help you in getting the Company registered.
- Company can be a Private Limited Company or Public Limited Company. It's mandatory that in MOA it should mention Internet Service Provider (ISP) as a service.

ISP license is sub divided into 3 categories

Select the category in which you want to apply for the UL ISP License, opt between A, B or C category. These three different categories of VNO ISP license in India are bifurcated by DOT. Country is divided into 24 Service Areas consisting of 20 Telecom Circle Service and 4 Metro Service Areas for Category "B" 322 Secondary Switching Areas for Category "C" UL ISP license is cheapest for class C.

Category A – All India Level – (National Area). This license is for Pan India operations.

Category B – State Level (Telecom Circle /Metro circle) – Class B license is issued for a total of 20 major states or any of the following Metro Cities – Mumbai, New Delhi, Kolkata, Chennai, Bengaluru, Pune, Hyderabad and Ahmedabad. The govt keeps issuing notifications regarding territories declared as telecom circles and metro areas from time to time. To know more about the Telecom Circles and Metro Areas in India, contact us.

Category C – SSA (Secondary Switching Area) – This license is for only a particular secondary switching area. A secondary switching area is a government defined territory which could

comprise of several small villages, towns or even districts. A class C license holder will have access to any 1 particular SSA only, unless he applies for multiple authorizations under one unified License.

How to get an ISP License?

The **ISP license** application is an extensive process subject to strict adherence to complete and accurate paperwork and procedure. An error in paperwork is likely to delay the process by several weeks or even months leading to loss of time and money.

Hiring an experienced ISP consultant can help you save time and efforts and get an ISP License without a hassle in stipulated time period.
