

VNO License Registration in India

What is a VNO License?

A **Virtual Network Operator** is an internet service reseller extending high-quality network and management services to other networking companies that do not possess their own telecom setup.

- A VNO (Virtual Network Operator) License is a miniature version of an ISP license.
- With an ISP license, you can run internet services on a larger domain. ISPs who wish to operate small level internet service only in a particular territory can choose a VNO license instead of an ISP license.
- VNO is affordable, less complicated, convenient and ideal for small level ISPs.

Issuing Authority – Department of Telecommunication Delhi.

- This license is needed for running Internet services or Data services in India.
- You can provide internet services like Leased Line/Broadband /VOIP /IP TV etc.
